Notes to the Condensed Interim Consolidated Financial Statements For the three and nine months ended April 30, 2018 and 2017 (Unaudited - expressed in Canadian Dollars)

1 Organization and nature of operations

Colonial Coal International Corp. (the "Company") was incorporated pursuant to the Business Corporations Act of Alberta on August 1, 2007. The Company's corporate head office is located at Suite 200 – 595 Howe Street, Vancouver, British Columbia, Canada. The Company is listed for trading on the TSX Venture Exchange (the "Exchange") under the symbol "CAD".

The Company's principal activities include the acquisition, exploration and development of coal properties located in Canada. The Company is also pursuing the acquisition of Watson Island, located just outside of Prince Rupert, British Columbia, for the purpose of developing a seaport terminal and supporting industrial park.

2 Basis of presentation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to the preparation of interim financial statements, including IAS 34, Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended July 31, 2017, which have been prepared in accordance with IFRS.

The Company uses the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended July 31, 2017.

The preparation of interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these condensed interim financial statements, the significant judgments made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended July 31, 2017.

These financial statements were approved by the board of directors for use on June 20, 2018.

3 Accounting standards issued but not yet applied

The following new standards have been issued but not yet applied:

a) IFRS 9, Financial Instruments, was issued in July 2014 and replaces IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 was developed in phases by the IASB. As a result there are a number of transition options and requirements in relation to earlier versions of IFRS 9 prior to the mandatory effective date of IFRS 9 in its entirety. IFRS 9 is mandatory for annual periods beginning on or after January 1, 2018. IFRS 9 includes requirements for classification and measurement of financial assets and financial liabilities; impairment methodology for financial instruments; and general hedge accounting. IFRS 9 has specific

Notes to the Condensed Interim Consolidated Financial Statements For the three and nine months ended April 30, 2018 and 2017 (Unaudited - expressed in Canadian Dollars)

requirements for whether debt instruments are accounted for at amortized cost, fair value through other comprehensive income or fair value through profit or loss. IFRS 9 requires equity instruments to be measured at fair value through profit or loss unless an irrevocable election is made for use of fair value through other comprehensive income which results in changes in fair value not being recycled to the income statement. The Company has not adopted IFRS 9 and has not completed its assessment of the impact of this standard.

c) IFRS 16, Leases, was issued in January 2016 and eliminates the classification of leases as either operating or finance leases for a lessee. Instead all leases are capitalized by recognizing the present value of lease payments and recognizing an asset and a financial liability representing an obligation to make future lease payments. The principles in IFRS 16 provide a more consistent approach to acquiring the use of an asset whether by leasing or purchasing an asset.

The new leasing standard is applicable to all entities and will supersede current lease accounting standards under IFRS. IFRS 16 is mandatory for annual periods beginning on or after January 1, 2019. The Company has not adopted IFRS 16 and has not completed its assessment of the impact of this standard.
